Bill	Support/ Oppose	Latest Update	Title	Intent	Analysis	Committee	Hearing Date	Status	
AB 1	WATCH	**Jan 30, 2013**	**Water quality: integrated plan: Salinas Valley**	Appropriates $2,000,000 to the state water quality control board for use by the Greater Monterey County Regional Water Management Group to develop an integrated plan to address the drinking water and wastewater needs of disadvantaged communities in the Salinas Valley whose waters have been affected by waste discharges	2/12 Our major concern is the possible impact on water rights. This bill so far is purely concerned with water quality and has a broad support base in environmental, farming and water supply organizations. So far, we find it beneficial, but we will continue to watch it.	Assembly Appropriations	Feb 12, 2013	requires 2/3 vote to pass - in committee; 2/12 passed Assembly Environmental Safety and Toxic Materials committee, moved on to Appropriations	AB-1
AB 8	WATCH	**Mar 11, 2013**	**Alternative fuel and vehicle technologies: funding programs**	Refines programs to enhance hydrogen fuel networks for vehicles and programs to repower "high-emitting engines" to approved engines		Assembly Transportation	Apr 8, 2013	requires 2/3 vote to pass - in committee	AB-8
AB 23	SUPPORT	**Feb 7, 2013**	**State responsibility areas: fire prevention fees**	repeal the SRA fire prevention fees	There were a large number of loose ends and inequities on 2011's SRA fee legislation, including double-taxation of properties who are served by a local fire district. This bill repeals the fee. Our understanding is that funds from SRA fees are supposed to be paid for services received. No one to our knowledge has actually received a service for paying this "fee" * The money collected is not being used to exclusively fund fire prevention activities. * Many people who pay this "fee" reside in local fire districts, which provide all of their fire protection and fire prevention services * Local districts provide mutual aid assistance to CalFIRE but do not receive any benefit from the fee for those services * There are large districts that regularly receive mutual aid assistance from CalFIRE for large fire events like Los Angeles County that are NOT paying this fee.	Assembly Natural Resources		in committee; 2/11 amended, changes not substantive	AB-23
AB 37	WATCH	**Mar 18, 2013**	**Environmental quality: California Environmental Quality Act: record of proceedings**	Requires the lead agency, at the request of a project applicant, to prepare a record of proceedings concurrently with EIR reports, including negative declarations, mitigated negative declarations, environmental impact reports and other environmental documents. AB 153	WATCH	**Jan 31, 2013**	**California Global Warming Solutions Act of 2006: offsets**	This bill, if the state Air Resource board uses its authority to include the use of market-based compliance mechanisms, would require the state board, on or before January 1, 2014, to adopt a specified process for the review and consideration of new offset protocols and, commencing in 2014 and continuing annually thereafter, use that process to review and consider new offset protocols.		Assembly Natural Resources	may be heard 2/12/1/13	in committee	AB-153
AB 203	WATCH	**Mar 18, 2013**	**Coastal resources: coastal development permits: penalties.**	The bill would prohibit the commission, with exceptions, from filing as complete, or acting upon, an application for a coastal development permit for a project on property that is subject to an existing violation case for which a violation notification letter has been sent, or a cease and desist order, restoration order, or notice of violation has been issued or recorded until the violation has been resolved. The bill would authorize the commission to resolve any unresolved dispute between the executive director and an applicant regarding the implementation of the above provision at a noticed hearing. This bill would authorize the commission to file as complete an application for a coastal development permit for development on such a property if the violation is de minimis, as defined. This bill would prohibit the commission from taking action on the application until the de minimis violation has been resolved, as determined by the executive director	Anything that combines the Coastal Commission and Mark Stone is automatically worrisome, starting to look benign	Assembly Natural Resources	Apr 1, 2013	3/11 amended; 3/18 hearing date set	AB-203
