Bill	Support/ Oppose	Latest Update	Title	Intent	Analysis	Committee	Hearing Date	Status	
AB 1	WATCH	Jan 30, 2013	**Water quality: integrated plan: Salinas Valley**	Appropriates $2,000,000 to the state water quality control board for use by the Greater Monterey County Regional Water Management Group to develop an integrated plan to address the drinking water and wastewater needs of disadvantaged communities in the Salinas Valley whose waters have been affected by waste discharges	2/12 Our major concern is the possible impact on water rights. This bill so far is purely concerned with water quality and has a broad support base in environmental, farming and water supply organizations. So far, we find it beneficial, but we will continue to watch it.	Assembly Appropriations	Feb 12, 2013	requires 2/3 vote to pass - in committee; 2/12 passed Assembly Environmental Safety and Toxic Materials committee, moved on to Appropriations	AB-1
AB 8	WATCH	Mar 11, 2013	**Alternative fuel and vehicle technologies: funding programs**	Funds programs to enhance hydrogen fuel networks for vehicles and programs to repower "high-emitting engines" to approved engines		Assembly Transportation	Apr 8, 2013	requires 2/3 vote to pass - in committee	AB-8
AB 23	SUPPORT	Feb 7, 2013	**State responsibility areas: fire prevention fees**	repeal the SRA fire prevention fees	There were a large number of issue ends and inequities on 2011's SB allow fee legislation, including double-taxation of properties who are served by a local fire district. This bill repeals the fee. Our arguments against the fee include: * Fees are supposed to be paid for services received. No one to our knowledge has actually received a service for paying this "fee" * The money collected is not being used to exclusively fund fire prevention activities. * Many people who pay this "fee" reside in local fire districts, which provide all of their fire protection and fire prevention services * Local districts provide mutual aid assistance to CalFIRE but do not receive any benefit from the fee for those services * There are large districts that regularly receive mutual aid assistance from CalFIRE for large fire events like Los Angeles County that are NOT paying this fee.	Assembly Natural Resources		in committee; 2/11 amended, changes not substantive	AB-23
AB 37	WATCH	Mar 18, 2013	**Environmental quality: California Environmental Quality Act: record of proceedings**	Requires the lead agency, at the request of a project applicant, to prepare a record of proceedings concurrently with EIR reports, including negative declarations, mitigated negative declarations, environmental impact reports, and other environmental documents. No state reimbursement is required. Sunset clause for January 1, 2017.		Assembly Natural Resources Committee		in committee; 3/18 amended	AB-37
AB 73	WATCH	Mar 14, 2013	**2013-14 Budget**	Makes appropriations for support of state government for fiscal year 2013-14.		Assembly Budget		3/14 assigned to committee	AB-73

AB 153	WATCH	Jan 31, 2013	**California Global Warming Solutions Act of 2006: offsets**	This bill, if the state Air Resource board uses its authority to include the use of market-based compliance mechanisms, would require the state board, on or before January 1, 2014, to adopt a specified process for the review and consideration of new offset protocols and, commencing in 2014 and continuing annually thereafter, use that process to review and consider new offset protocols.		Assembly Natural Resources	may be heard 2/12/1/13	in committee	AB-153
AB 203	WATCH	Mar 18, 2013	**Coastal resources: coastal development permits: penalties.**	The bill would prohibit the commission, with exceptions, from filing as complete, or acting upon, an application for a coastal development permit for a project on property that is subject to an existing violation case for which a violation notification letter has been sent, or a cease and desist order, restoration order, or a notice of violation has been recorded, until the violation has been resolved. The bill would authorize the commission to resolve any unresolved dispute between the executive director and an applicant regarding the implementation of the above provision at a noticed hearing. This bill would authorize the commission to file as complete an application for a coastal development permit for development on such a property if the violation is de minimis, as defined. This bill would prohibit the commission from taking action on the application until the de minimis violation has been resolved, as determined by the executive director	Anything that combines the Coastal Commission and Mark Stone is automatically worrisome, starting to look benign	Assembly Natural Resources Committee	Apr 1, 2013	3/11 amended; 3/18 hearing date set	AB-203
AB 245	SUPPORT	Mar 27, 2013	**California Global Warming Solutions Act of 2006: public meetings**	lists criteria that need to be considered when rating a fuel's "carbon rating"	WCI desperately needs some sunshine in its proceedings. As it currently stands, the public has no access to how the money be collected from CARB's cap-and-trade scheme is being handled. CLFA thinks this needs watched. AB 416	WATCH	Mar 21, 2013	**California Air Resources Board: Local Emission Reduction Program**	Creates a Local Emission Reduction Program and provides grant money from the general fund for greenhouse gas emission projects and job creation	The offending phrase in section 39680 is: (8) Prevent conservation of agricultural, forest, and open space lands to uses that result in higher greenhouse gas emissions. I expect "conservation" should be "conversion". Other comments - money from the GGRF. 3/21 offending phrase edited - further comments - money from general fund. should be used for other purposes first, also concerned about mechanism to be used for preventing conversions.	Assembly Natural Resources Committee	Apr 1, 2013	from printer 2/19/13, not yet assigned to committee; 3/4 referred to Assembly Natural Resources Committee and Assembly Local Government Committee; 3/18 hearing date set; 3/21 amended	AB-416
