

Bill	Support/ Oppose	Latest Update	Title	Intent	Analysis	Committee	Hearing Date	Status	
AB 1	WATCH	Apr 4, 2013	Water quality: integrated plan: Salinas Valley	Appropriates \$2,000,000 to the state water quality control board for use by the Greater Monterey County Regional Water Management Group to develop an integrated plan to address the drinking water and wastewater needs of disadvantaged communities in the Salinas Valley whose waters have been affected by waste discharges; 4/3 amendment allows any remaining money from the study to be used for executing the plan or running in-site tests of plan concepts	2/12 Our major concern is the possible impact on water rights. This bill so far is purely concerned with water quality and has a broad support base in environmental, farming and water supply organizations. So far, we think it is beneficial, but we will continue to watch it.	Assembly Appropriations	Apr 10, 2013	requires 2/3 vote to pass - in committee; 2/12 passed Assembly Environmental Safety and Toxic Materials Committee, moved on to Appropriations; 4/3 amended; 4/4 hearing set	AB-1
AB 8	WATCH	Mar 11, 201	Alternative fuel and vehicle technologies: funding programs	Funds programs to enhance hydrogen fuel networks for vehicles and programs to repower "high-emitting engines" to approved engines		Assembly Transportation	Apr 8, 2013	requires 2/3 vote to pass - in committee	AB-8
AB 23	SUPPORT	Apr 3, 2013	State responsibility areas: fire prevention fees	repeat the SRA fire prevention fees	There were a large number of loose ends and inequities on 2011's SRA fee legislation, including double-taxation of properties who are served by a local fire district. This bill repeals the fee. Our arguments against the fee include: Fees are supposed to be paid for services received. No one to our knowledge has actually received a service for paying this "fee". * The money collected is not being used to exclusively fund fire prevention activities. * Many people who pay this "fee" reside in local fire districts which provide all of their fire protection and fire prevention services * Local districts provide mutual aid assistance to CalFire but do not receive any benefit from the fee for those services * There are large districts that regularly receive mutual aid assistance from CalFire for large fire events like Los Angeles County that are NOT paying this fee.	Assembly Natural Resources	Apr 15, 2013	in committee; 2/11 amended, changes not substantive; 4/1 hearing set	AB-23
AB 37	WATCH	Apr 3, 2013	Environmental quality: California Environmental Quality Act: record of proceedings	Requires the lead agency, at the request of a project applicant, to prepare a record of proceedings concurrently with EIR reports, including negative declarations, mitigated negative declarations, environmental impact reports and other environmental documents. No state reimbursement is required. Sunset clause for January 1, 2017		Assembly Natural Resources Committee	Apr 15, 2013	in committee; 3/18 amended; 4/3 hearing set	AB-37

AB 124	SUPPORT	Apr 3, 2013	State responsibility areas: fire prevention fees	repeat the SRA fire prevention fees	see AB 23	Assembly Natural Resources	Apr 15, 2013	in committee; 4/1 hearing set	AB-124
AB 153	WATCH	Apr 8, 2013	California Global Warming Solutions Act of 2006: 5/15sets	This bill, if the state Air Resource board uses its authority to include the use of market-based compliance mechanisms, would require the state board, on or before January 1, 2014, to adopt a specified process for the review and consideration of new offset protocols and, commencing in 2014 and continuing annually thereafter, use that process to review and consider new offset protocols. - 4/8 amendment prioritizes offset protocols: first priority to the creation of green jobs, second to improving air quality in heavily impacted communities, third to health and environment benefits across the state		Assembly Natural Resources	Apr 15, 2013	in committee; 4/3 hearing set; 4/8 amended	AB-153
AB 203	WATCH	Apr 3, 2013	Coastal resources: coastal development permits: penalties.	The bill would prohibit the commission, with exceptions, from filing as complete, or acting upon, an application for a coastal development permit for a project on property that is subject to an existing violation case for which a violation notification letter has been sent, or a cease and desist order, restoration order, or notice of violation has been issued or recorded until the violation has been resolved. The bill would authorize the commission to resolve any unresolved dispute between the executive director and an applicant regarding the implementation of the above provision at a noticed hearing. This bill would authorize the commission to file as complete an application for a coastal development permit for development on such a property if the violation is de minimis, as defined. This bill would prohibit the commission from taking action on the application until the de minimis violation has been resolved, as determined by the executive director.	Anything that combines the Coastal Commission and Mark Stone is automatically worrisome, starting to look benign	Assembly Appropriations	Apr 1, 2013	3/11 amended; 3/18 hearing date set; 4/3 passed Natural Resources	AB-203
AB 245	SUPPORT	Apr 8, 2013	California Global Warming Solutions Act of 2006: public meetings	repeals exemption granted to Western Climate Initiative for Bagley-Keene Open Meeting Act	WCI desperately needs some sunshine in its proceedings. As it currently stands, the public has no access to how the money is collected from CARB's cap-and-trade scheme is being handled. CLFA thinks this needs weekly. We need to consider how likely it is that reasonable forecasts can even be produced	ASM Environmental Organization and Natural Resources	Apr 10, 2013	3/27 hearing set; 4/3 amended	AB-245
AB 278	WATCH	Apr 4, 2013	California Global Warming Solutions Act of 2006: Low Carbon Fuel Standard	lists criteria that need to be considered when rating a fuel's "carbon rating"; 4/4 amendment requires board consider "greenhouse gas emissions associated with land use - including impacts of potential or actual deforestation..		Assembly Appropriations	may be heard 3/14/13	2/21 assigned to Natural Resources; 4/3 passed Natural Resources; 4/4 amended	AB-278
AB 284	WATCH	Apr 8, 2013	Energy: Road to 2050 Board	forms board to track progress in greenhouse gas emissions reduction. The 4/8 amendment requires hiring an independent research group to formulate the report, specifies the reporting cycle, specifies the metrics to track.	The new amendment includes a report key concepts that will hopefully give the project to reality. First, it needs to couple cost-effectiveness. Cost-effectiveness is one factor that will drive adjustments to the program. There is still no realization that the cost-benefit ratio may be so bad that scrapping the program may be the only viable action, not is there any understanding that much of the reductions in greenhouse gases may be due to businesses leaving the state and setting up shop elsewhere, which will amount to a net loss to the program due to increased transportation costs of the final product.	Assembly Natural Resources	Apr 15, 2013	2/21 assigned to Nat Res and U.S.C.A.; 4/3 hearing set; 4/8 amended	AB-284
AB 350	SUPPORT	Apr 3, 2013	Timber harvesting plans: exempt activities	The bill would increase the size of tree that may be removed without a permit without a THP for the purpose of fire safety		Assembly Natural Resources Committee	Apr 29, 2013	4/3 hearing set	AB-350
AB 374	WATCH	Apr 8, 2013	Eminent domain: compensation: loss of goodwill.	allows a business owner to be also compensated for loss of goodwill in eminent domain takings	The legislative analysis remarks that goodwill is not a tangible asset. This change requires documentation that goodwill existed and has been adversely affected by the taking.	Assembly Judiciary	Apr 9, 2013	4/3 added to list; 4/8 legislative analysis available	AB-374
AB 383	WATCH	Apr 8, 2013	An act to amend Sections 2102...	This is a massive bureaucracy and procedural bill. There is a section that addresses implementation of the THP process review of AB 1492 - see section 171 of the bill; there is a section for financing habitat restoration for coho, see section 228	a "Maintenance of the Codes" bill	Assembly consent calendar	file date 4/8/13	from printer 2/15, not yet assigned to committee; 3/4 assigned to committee; 3/11 hearing date set; 4/3 passed committee, sent to assembly committee; 4/8 Assembly floor vote, all aye except absentees	AB-383
AB 416	WATCH	Apr 8, 2013	California Air Resources Board: Local Emission Reduction Program	Creates a Local Emission Reduction Program and provides grant money from the general fund for greenhouse gas emission projects and job creation	The offending phrase in section 39680 is (b) "prevent conversion of agricultural, forest, and open space lands to uses that result in higher greenhouse gas emissions. I expect "conservation" should be "conversion" email submitted about this 3/4/13; 3/21 offending phrase edited - further comments - money from general fund should be used for other purposes first, also concerned about mechanism to be used for preventing conversions; 4/4 amended to require money be appropriated by legislature	Assembly Local Government	Apr 10, 2013	from printer 2/19/13, not yet assigned to committee; 3/4 referred to Assembly Natural Resources Committee and Assembly Local Government Committee; 3/19 hearing date set; 3/21 amended; 4/3 passed Natural Resources Committee; 4/4 amended	AB-416
AB 497	WATCH - need to assess salmon rules with regard to timber	Apr 8, 2013	Fish and Wildlife	adjusts meeting rules and notification rules for the Fish and Game Commission; 3/21 amendment adds a wildlife resources committee to the commission, adds ability to adopt salmon and groundfish regulations, regulations not subject to Govt Code sections 11343.4, 11343.5, 11346.4, 11346.5, regulations take effect when filed.	reduces the number of meetings required, the number of meetings required to be outside the Sacramento area, the amount of public notification of meetings and so forth. This appears to make the commission less accessible to the public	Assembly Water Parks and Wildlife Committee	Apr 16, 2013	from printer 2/21, not yet assigned to committee; 3/4 assigned to committee; 3/21 amended; 3/27 hearing set; 4/2 amended	AB-497

AB 515	WATCH WITH GREAT CARE	Mar 14, 201	Environmental Quality Act: judicial review	establishes separate CEQA court districts for hearing CEQA cases	amendment adds land use and environmental law cases, this is becoming serious. AB 756	WATCH	Mar 19, 201	Environmental Quality: California Environmental Quality Act	may be placeholder or may require one lead agency for CEQA bills. 3/19 this just came to life. Assembly Judiciary Committee		from printer 2/22/13, not yet assigned to committee; 3/19 amended and referred to Judiciary and Natural Resources	AB-756
AB 763	SUPPORT	Mar 20, 201	Aquatic invasive plants: control and eradication	requires coordination of state and federal agencies to identify top priority invasive aquatic plants and eradicate them	anything requiring agency coordination before action is to be applauded	Assembly Water Parks and Wildlife Committee	Apr 16, 2013	from printer 2/22, not yet assigned to committee; 3/18 amended; 3/20 hearing set	AB-763
AB 769	WATCH	Apr 8, 2013	Taxation: loss carrybacks: net operating loss deductions	disallows the use of net operating loss carrybacks for individuals and corporations; 4/8 there is a large addition to the bill that requires a justification for tax credits. The report should demonstrate the credit's effectiveness in meeting the public goals which it was designed for. It also advocates for sunset clauses for tax credits	this may apply to members who are trying to spread their income losses across previous year's statements. As we understand it, most people roll their major income fluctuations forward, but since timber typically has lots of years of losses then one big income year in its normal cycle. It worth monitoring. 4/8 performance reviews and sunset clauses for tax credits is a sensible action.	Assembly Revenue and Taxation Committee	Apr 15, 2013	from printer 2/22, not yet assigned to committee; 3/4 hearing date set; 4/8 amended	AB-769

AB 1051	WATCH	Apr 8, 2013	Housing	spends environmental money to build high-density low-income housing near transit stations, amendment expands scope of bill to also funding various transit projects and energy efficiency projects within low-rent housing - 4/8 amendment requires the Legislature to appropriate the funds for the project. It also adds local parks, urban forestry and protection of open space to the scope of the project. (7) To the California Natural Resources Agency _____ dollars (\$) for allocation to its departments and state conservancies for the purposes of funding the following projects that show greenhouse gas reductions: urban forestry, local parks, and the protection of open space, including wildlife habitats and working lands.	it's the greenhouse fund that provides the \$\$ for these projects, so it leaves the general fund alone. It may increase pressure to force funding into the greenhouse fund. - 4/8 - the mention of open space is tempered by the mention of working lands. We really don't need more pressure on the Open Space Districts. Another thought is that participating in these projects may open a landowner up to a world of nit-picky judgements between the benefit of his green growing plants and the deficits of the machinery used to maintain them and their environment. Who needs another set of reports to file?	Assembly Housing and Community Development	Apr 17, 2013	read first time 2/25/13; 3/21 amended and assigned to Housing and Community Development and Transportation committees; 4/8 amended	AB-1051

This undoes the worst of the silliness.	Assembly Water Parks and Wildlife Committee		read first time 2/25/13; amended 3/13	AB-1230
