Incentives are added for developing sustainable low carbon fuels that do not impact food supplies or take over food croplands	CLFA thinks this needs work. We need to consider how likely it is that reasonable forecasts can even be produced; 7/11 CARB now get to apply its dubious judgment on assessing "the positive or negative effect of a fuel source on the global food supply, including, but not limited to, crop displacement, food prices, food shipping, and market conditions." And they're so GOOD at researching these things thoroughly	Senate Appropriations	Aug 12, 2013	2/21 assigned to Natural Resources; 4/3 passed Natural Resources; 4/4 amended; 5/28 passed Assembly, sent to Senate; 6/14 assigned to Transportation and Housing and Environmental Quality; 6/17 amended; 6/20 passed Transportation and Housing, sent to Environmental Quality; reassigned to Natural Resources and Water; 6/20 gutted and amended

AB-904	SUPPORT/ AMENDMENTS URGED	Jun 27, 2013	Forestry: working forest management plan	currently discusses appeal procedures for NTMPs; 4/22 the text has finally emerged. This bill creates Working Forest Management Plans, the big acreage analog to NTMPs.	This bill is generally good but could use some massaging. NTMPs are untouched and the Southern Subdistrict can participate. CCFA shares FLC's concern about the level of inspection. FLC offered another solution: when the RPF and CalFIRE disagree on the level of restocking, the one complaining should do a cruise to determine the correct measurement. If the landowner/RPF is correct, CalFIRE carries the burden of the cruise costs. If CalFIRE is correct, the landowner pays cruise costs + 10%. CCFA believes this plan should also uphold the concept of Safe Harbor. If the land is managed such that a rare/ endangered species colonizes the land, the landowner should be allowed to continue his business as usual, since what he is doing is correct for that creature. CLFA also submitted a list of improvements.	Senate Appropriations		3/18 from printer 2/25, not yet assigned to a committee; 3/18 assigned to committee; 3/11 hearing date set; 4/3 passed committee; 4/4 amended; 5/28 passed Assembly, sent to Senate; 6/13 assigned to Transportation and Water, hearing set; passed Natural Resources and Water, sent to Appropriations
AB-976	OPPOSE	Jul 9, 2013	Coastal resources: California Coastal Act of 1976:enforcement: penalties	provides the option of penalties imposed by the Coastal Commission directly as an alternate to penalties from the court. All monies collected go to the Coastal Commission coffers; 5/28 amendment removes provision that fees go into Coastal Commission coffers, the rest is wording clarification; 7/8 provision added that penalties cannot be assessed if violation is corrected within 30 days, and if correcting the violation does not require obtaining additional permits, now requires reports to legislators of number of violations issued, number of violations resolved, number of penalties assessed and amount of penalties, descriptions of violations, all to be reported for years Jan 1 2014 - Dec 31 2015. The bill sunsets on Jan 1 2017 unless renewed.	CCFA is concerned about penalties originating within the Coastal Commission because of the Coastal Commission's past history of being arbitrary and obstructionist. In a recent Ag Alert article, the Farm Bureau notes several instances where simple crop rotation actions were viewed as "intensification of farming"; farmers were not allowed to build permanent structures for themselves of their livestock, or perform other land maintenance operations.	Senate Appropriations	Aug 12, 2013	5/24 added to CCFA monitoring list; 5/28 amended; 6/13 assigned to Natural Resources and Water and Judiciary hearing set; 6/20 passed Natural Resources and Water, sent to Judiciary; 7/2 passed Judiciary, sent to Appropriations; 7/8 amended
AB-1097	WATCH	Jul 3, 2013	Fish and Game Commission:Mirage Trail	declares primary function of CDF&W is to provide services for those who fish or hunt; 5/1 amendment struck all language relating to the purpose to Fish and Wildlife service. The bill now addresses only the Mirage Trail	winding back the clock..., specifies the name change protocol, adds text for when the Mirage trail within the Magnesia Spring Ecological Reserve shall be open to the public; 5/2 CCFA no longer has any interest in this bill.	Senate Appropriations	Aug 12, 2013	read first time 2/25/13; 3/14 amended, assigned to committee; 4/4 hearing set; 4/30 amended and passed Water, Parks and Wildlife, now on the floor; 5/3 passed Assembly; 5/24 assigned to Senate Natural Resources and Water; 5/30 hearing set; 6/7 committee analysis posted; passed Natural Resources and Water, sent to Consent Calendar; 6/19 amended; 6/27 in Appropriations, hearing postponed; 7/3 hearing set
AB-1213	WATCH	Jun 27, 2013	Bobcat protection act of 2013	places bobcats into protected status; the 4/25 amendment changes the entire flavor of the bill by now treating bobcats as any other far-bearing animal with Fish and Wildlife able to set harvest limits based on populations, and providing a licensing mechanism for the takes; 5/24 amendment pushes the protection back to a no-trap situation in a large number of enumerated areas, but does allow a deposition permit for damage to crops or livestock; 6/20 amendment limits no trap zones to those parks, monuments and preserves that are already no-trap zones. It specifically discusses trapping, so depredation is not involved in the discussion	The 5/24 amendment did not serve to clarify the bobcat protection parameters. Since it now lists depredation of crops or livestock as a justifiable cause for taking bobcats, CCFA is neutral on the topic. The 6/20 amendment no longer discusses depredation, the law is entirely focused on trapping, and intends trapping for fur. There may be some vagueness about depredation, since we are somewhat unfamiliar with the normal way of disposing of nuisance bobcats.
