We need to consider how ilkely it is that reasonable forecasts can even be developed. AB-904	SUPPORT	Aug 22, 2017	**Forestry: working forest management plan**	currently discusses appeal procedures for NTMPs. 4/10 amendments adds discussion of the Forestry Working Forest Management Plans, the big acreage analog to NTMPs.	This bill is generally good but could use some clarification. The CCFA, the Sierra Club and the Southern Sublobtol can participate. CCFA shares FLC's concern about the ability to appeal a CalFIRE THP approval. CalFIRE carries the burden of the cruise costs. If CalFIRE is correct, the landowner pays the cost of the THP. If CCFA believes the plan should also uphold the concept of Safe Harbor. If the land is managed such that a new endangered species colonizes the land, CCFA believes that should not force or continue his business as usual, since what he is doing is correct for that property. CCFA has submitted a list of improvements. AB-976	OPPOSE	Aug 20, 2017	**Coastal resources: California Coastal Act of 1976 enforcement: penalties**	provides the option of penalties imposed by the Coastal Commission directly as an alternate to penalties from the court. All monies collected go to the Coastal Commission Fund. 4/10 amendment removes provision that fees go into Coastal Commission coffers. the rest is wording clarifications. 5/29 amendments adds a new section to the bill, assessed if violation is corrected within 30 days, and if correcting the violation does not require obtaining additional permits. now requires reports to legislature to evaluate issues, number of violations and penalties assessed, 6/17 amendments adds a new list of penalties, descriptions of violations, all to be reported for years Jan 1 2014 - Dec 31 2015. The bill now addresses only the penalties	CCFA is concerned about penalties originating within the Coastal Commission because of the Coastal Commission's reputation for being arbitrary and capricious(sic). In a hearing Ag Alert article, the Farm Bureau notes that penalties against farmers for their violation actions were viewed as "intensification of farming", farmers were not allowed to build permanent structures for themselves of their livestock, or engage in normal land maintenance operations.	Senate Third Reading		5/24 added to CCFA monitoring list; 5/28 amended; 6/20 passed Assembly, sent to Senate; 6/24 assigned to Natural Resources and Water and Judiciary, hearing set; passed Natural Resources and Water; sent to Judiciary; 7/2 passed Judiciary, sent to Appropriations; 7/8 amended; 8/14 amended

The bill now addresses only the Mirage Tract	winding back the clock....specifies the name change protocol. adds text for when the Mirage had within the Mojave Desert Spring Ecological Reserve shall be open to the public. The CCFA no longer has any interest in this DFA	Senate Appropriations Suspense File	Aug 30, 2013	read first time 2/25/13; 3/14 amended, assigned to committee; set hearing set; 4/30 amended and passed Water, Parks and Wildlife; sent to the floor; 5/6 amd Assembly floor; 5/24 assigned to Senate Natural Resources and Water; 5/28 hearing set; 6/7 committee analysis posted; passed Natural Resources and Water; sent to Consent Calendar; 6/19 passed Senate; 6/20 hearing postponed; 7/3 hearing set; 8/7 hearing postponed; 8/12 hearing cancelled; 8/19 sent to appr suspense file; 8/22 hearing set
AB-1213	WATCH	Aug 15, 2017	**Bobcat protection act of 2013**	places bobcats into protected status; the 4/25 amendment changes the entire flavor of the bill by adding a section to the Fish and Game code that addresses removing the money needed to be raised via water bonds for a variety of purposes; 5/31 amendments pushes the protection of bobcats back to a no-trap situation in a large number of counties, and adds a section that allows a depredation permit for damage to crops or livestock., 6/22 amendment limits no-trap zones to those parks, monuments and preserves that are within the no-trap zones. It specifically discusses trapping, so depredation is not involved in the discussion	The 5/24 amendment did not serve to clarify the bobcat protection parameters. Now it is a bill that addresses trapping and another solution: when the RPF and CalFIRE disagree on the level of harvesting, the one complaining should do a cruise to determine the correct assessment. If the RPF's estimate is correct, CalFIRE carries the burden of the cruise costs. If CalFIRE is correct, the landowner pays the cost of the THP. CCFA believes the plan should also uphold the concept of Safe Harbor. If the land is managed such that a new endangered species colonizes the land, CCFA believes that should not force or continue his business as usual, since what he is doing is correct for that property. We do think economic analysis of costs is essential and hope these analyses are not distorted by unrealistic projections of the cost to benefit analysis has entered woo-woo land. It's all about cost of air pollution in the end. Hydrogen is a technology set forth and nothing about economic impacts on the average citizen. The scope has been more tightly defined to traffic infill projects.	don't care much about the "smart infill" provisions. The bill is premature.
